

**For coaches looking to take the copper/bronze level coaches course:**

1. Ensure you've completed your 2017-18 coach membership annual renewal (this year it requires SafeSport certification (free), back ground check (\$15 and is good for two membership years) and annual coach membership fee (fee varies by state).
2. In your membership profile, select "Add online bronze course to cart."
3. Check out and pay for the course.
4. The bronze course link will be delivered within one hour to the email address on your membership profile (please ensure that is the right email).
5. You'll have 21 days to complete the course.
6. We add the certification to your profile in 2-3 business days of completion. Cards are sent 6-8 weeks after completion.
7. If you need proof of your certification sooner than the 6-8 week window (but after the 2-3 day window for processing), you can click "Print Card" at the bottom of your membership page and it will print your membership card and certification.
8. If you need proof of certification in less than the 2-3 day window, take the automated email you will receive at the end of the course to the tournament director along with your current membership card and photo ID for proof.
